

Leavitt Group of Boise

Our Services

Our experienced staff is here to help with your business, benefits, and personal insurance needs. We are more than your insurance agent. We are committed to building lasting relationships with our clients and the insurance companies that we represent. We do this by providing quality, value-added services and by developing long-term solutions for your risk management strategy.

Loss Control

Leavitt Group of Boise is committed to assisting our clients in driving down losses and controlling MOD rates through strategic planning. Our process is founded in fact finding and identifying trends from analyzing historical losses. A strategic plan is developed to attack causes of loss and prevent future incidents. We are committed to assist clients in implementing a full loss control model that will control loss through prevention and controlling costs. The full loss control model is pictured below:

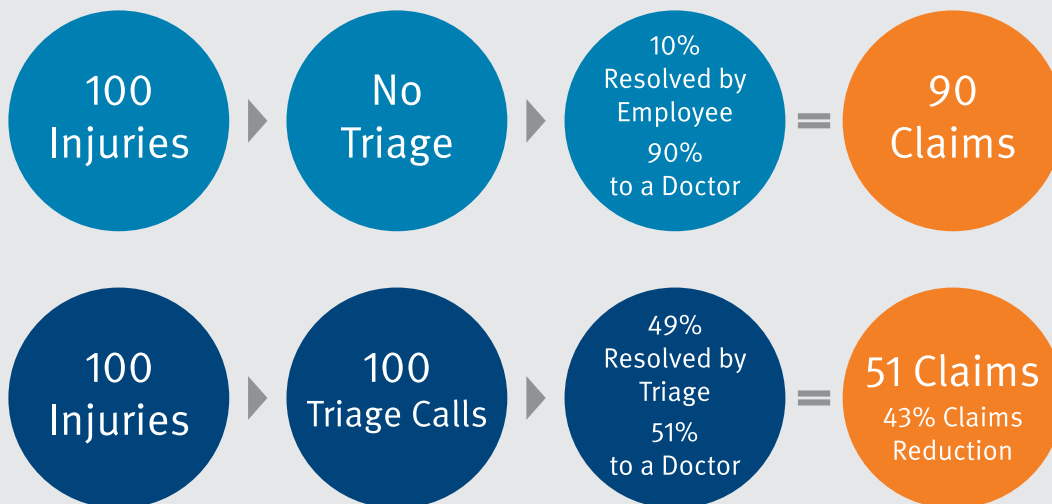

Claims Advocacy

Claims Advocacy addresses incidents after they occur and emphasizes employer best practices to control claim costs. It is our commitment to assist clients in ensuring the claims process is efficient and accountable from claim occurrence through closure.

- Policy and procedure consultation from occurrence to closure
- Work directly with claims adjustors to force efficiency
- Monthly, quarterly, semi-annual claims reviews
- Advise clients on claims process and resolutions
- Provide cost saving consultation to include MOD rate reduction

Medical Triage for Employee Workplace Injuries

Leavitt Risk Management Center

The Risk Management Center is right for any organization that wants to proactively manage their risk exposures and develop effective workplace safety programs to reduce claims, losses, and associated costs.

The goal of any risk management program is to reduce risks and injuries, while improving profitability. The Risk Management Center enables employers to:

- Meet OSHA hazard communication requirements
- Access a best-practices safety library
- Train employees efficiently and effectively
- Build a behavior-based safety program
- Manage certificates of insurance to limit liability
- Create job descriptions and modified duty programs
- And much more...
