

# Video Lending Resource

---

The [National Resource Safety Center website](#) features a lending library covering a variety of safety topics. When you visit the site, you'll see a catalog of training topics on the left side of the screen.

Select one of the categories to display a list of videos/DVDs covering that topic.

When you click on the title of a safety video, you'll see a description of that particular title along with the running time of the video, the year it was produced, and whether it's available in VHS or DVD, English or Spanish.

If the subject matter doesn't meet your specific needs, then return to the prior list of topics and continue previewing each subject until you find one that applies to your particular work situation.

We will send your video to you so you can use it in your training. You are free to use the video for two weeks before it needs to be sent back.

You will receive return instructions when your package arrives. For tracking purposes, we ask that you notify us via email when the video is shipped. The only costs associated with this service are for VHS tapes or if a Rush Order is requested.

Also, if a video or DVD is not returned by the due date, there will be late fee of \$50 assessed per video.

### **How To Request a Video or DVD**

- Note the SKU # stated in the online catalog (i.e. A151).
- Send an email to our San Jose video coordinator, Chanel Duenas ([chanel-duenas@leavitt.com](mailto:chanel-duenas@leavitt.com)) requesting the video or DVD.
- Include the title of the video, SKU #, and short description of what you're looking for.
