

# Ilene's Easy, Fast Green Chili Casserole

*One day I needed to come up with something for dinner and didn't have much in the house but didn't want to go to the store. I was able to quickly find and gather these ingredients to make this simple meal. My family loved and enjoyed it — even the kids! This is now one of my go-to's for potlucks. Super easy and I always get compliments on it.*
